ADOPTION AGREEMENT

In adopting a pet from the St. Francis Animal Protection Society, a non-profit volunteer organization dedicated to humane education and pet population control, I hereby agree to the following:

1. I will take responsible, humane care of the animal and maintain him/her with proper housing, nutrition, handling, and booster shots. In case of illness, I will take the animal to a qualified veterinarian for diagnosis and treatment, and I am responsible for costs incurred. If the Society is notified that the animal is at large or otherwise not properly cared for, or that the provisions of this agreement are otherwise not met, the Society reserves the right to take the animal back.
2. I understand that, per California Law, I must have this pet spayed or neutered at the appropriate age/weight, in coordination with St. Francis Animal Protection Society, if the animal is not already spayed or neutered. I agree to provide proof of surgery to the Society and agree to work with them on the arrangements for the surgery at a certified veterinary clinic depending on my city of residence. I understand that if I fail to have this pet spayed/neutered within the appropriate time, the Society, under law, may reclaim the animal.
3. I understand that the St. Francis Animal Protection Society is my pet's life-long co-owner and protector. This means that if, for any reason, at any time, I should be forced to give him/her up, I will contact St. Francis for assistance. I will under no circumstances place the animal myself with any persons, agencies, or humane societies because my dog or cat is co-owned by the St. Francis Animal Protection Society.
